## MAKING THE WORLD GREEN, ONE FIXTURE AT A TIME

Not only are our LED retrofit solutions easy to install into your existing fixtures, they can be upgraded to be dimmable, and they can be controlled remotely with your Smart Phone, or iPhone.

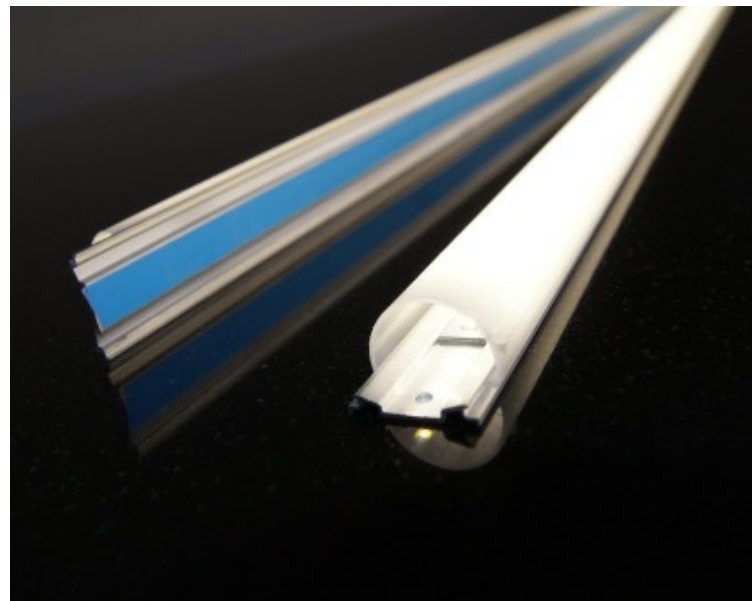

All while consuming just a fraction of the electricity your old lamps did. 60 to 80 percent energy savings are common with our LED light bars.

This sort of innovation and attention to quality is why M-Lite is fast becoming a top provider of Led retrofit kits in North, and South America.

Our LED Light Bars provide high quality lighting at an affordable price.

They are the perfect solution for your troffer retrofit, and come in 1, 2, or 3 light bar models. We even offer an 8 ft commercial fixture solution for those old tubes that are getting hard to find.

We have put our veteran know how into designing you an LED product that will provide maintenance free light for years to come. For a free case study contact us below.
